SALAT TIMETABLE 2025

NEW SOUTH WALES

CHANGE

Sydney

For the residents of Sydney, NSW, Australia. Officially made & endorsed by Geophysics Institute of Tehran University.

1447

Important Note: These Salat Times are according to the calculation method of the geophysics of Tehran University. In this method, Fajr Prayer is calculated at -17.7° and Maghrib Prayer is at - 4.5°, and midnight is mid sunset to Fajr. All Salat times are calculated based on a particular latitude and longitude. For example, the Salat times for Sydney, NSW are based on the specifics of the Rocks and is generalised for the entire Sydney metropolitan. Thus, the timing is not exact for those who are, for example, living in Blacktown or Liverpool or other suburbs far from the Rocks. Therefore, **we strongly recommend delaying your prayer at least a few minutes for precaution, and even for the Fajr Prayer, we strongly recommend delaying about 5 minutes for precaution.**
